### **Factors That May Affect Future Results**

This report, including Management's Discussion and Analysis or Plan of Operation, contains forward-looking statements and other prospective information relating to future events. These forward-looking statements and other information are subject to certain risks and uncertainties that could cause results to differ materially from historical or anticipated results, including the following:

**We have received a Going Concern opinion from our auditors on our financial statements for the years ended December 31, 2001 and December 31, 2000. Those statements indicate that we have reported losses for our last two years and if we do not become profitable our business could be adversely affected.**

We reported losses of \$2,613,101 and \$1,306,954 for the years ending December 31, 2000 and 2001. We also have an accumulated deficit of \$ 6,365,670 and stockholders' equity of \$50,590 as of December 31, 2001. We can provide no assurance that we will be profitable in the future and if we do not become profitable our business could be adversely affected.

**We were delisted by the NASDAQ Stock Market on October 9, 2001 and our stock has been trading on the OTC Bulletin Board Market (OTCBB) since that time.**

The NASDAQ National/Small Cap Market delisted our stock at the opening of business on October 9, 2001. The securities were removed from NASDAQ and subsequent to that date the PASW Common Stock (PASW) and Warrants (PASWW) have been trading on the OTC Bulletin Board Market (OTCBB). While we still have market makers for our securities there can be no assurance that we can continue to rely on our current market makers and that the price and trading volume of our securities could not be materially affected.

**We have limited resources available to continue operations unless a successful transaction is completed with a merger partner or that additional funding can be obtained from outside sources.**

At the present time we have limited resources available to continue operations other than maintaining day-to-day activities without any capabilities for expansion. The revenue received from our NRCJ subsidiary is sufficient to handle only maintenance administrative operations for the Company. While efforts are in process to seek a merger partner or other means of financing there is no assurance that any means can be obtained to permit the Company to resume any form of operations which could expand the business.

**Because our operating subsidiary depends on a small number of large orders, the loss or deferral of orders may have a negative impact on revenue.**

NRCJ is our only operating subsidiary and as such provides the majority of the funds required to operate the Company. Although none of its customers has accounted for 10% or more of total revenue in any fiscal year, a significant portion of software license revenue in each quarter is derived from a small number of relatively large orders. While we believe that the loss of any particular customer is not likely to have a material adverse effect on our business, our operating results could be materially adversely affected if our operating subsidiaries were unable to complete one or more substantial license sales in any future period.

**Any decrease in the market acceptance of our operating subsidiary's Internet and web products or lack of acceptance of new products would decrease our revenue.**

Our future results depend heavily on continued market acceptance of our operating subsidiary's products in existing and new markets. Our NRCJ subsidiary is a distributor for products supplied by Net Silicon, Inc. Revenue from licenses of the suite of Internet and Web products and sales of services accounted for substantially all of its revenue in the years ended December 31, 2000 and 2001. There is no assurance that Net Silicon will continue to fund the research required to keep our subsidiary supplied with state of the art products, that Net Silicon will continue the Distribution Agreement with NRCJ beyond its current termination date or that our subsidiary will have sufficient funds to properly advertise and market their product lines as an independent distributor. Any of these factors could have a material effect on our continued operations and financial results.

**Because our ownership is concentrated, our officers and directors and independently our majority stockholder will be able to control all matters requiring stockholder approval including delaying or preventing a change in our corporate control or taking other actions of which individual shareholders may disapprove.**

Our officers, directors and independently the majority stockholder beneficially own approximately 60% of our outstanding common stock. These parties will be able to exercise control over all matters requiring stockholder approval and other investors will have minimal influence over the election of directors or other stockholder actions. As a result, our officers, directors and independently the majority stockholder could approve or cause the Company to take actions of which you disapprove or that are contrary to your interests.

**Issuance of our authorized preferred stock could discourage a change in control, could reduce the market price of our common stock and could result in the holders of preferred stock being granted voting rights that are superior to those of the holders of common stock.**

The Company is authorized to issue preferred stock without obtaining the consent or approval of stockholders. The issuance of preferred stock could have the effect of delaying, deferring, or preventing a change in control. Management also has the right to grant superior voting rights to the holders of preferred stock. Any issuance of preferred stock could materially and adversely affect the market price of the common stock and the voting rights of the holders of common stock. The issuance of preferred stock may also result in the loss of the voting control of holders of common stock to the holders of preferred stock.

**You may experience dilution if we are compelled to litigate or arbitrate claims that have been asserted by Golenberg & Co. for the right to purchase 10% of the Company.**

In April 1999 we were notified that a merchant banker, Golenberg & Co., has asserted rights under a June 1998 letter agreement to purchase 10% of our then outstanding common stock for \$400,000. In June 1999 counsel for Golenberg & Co. reiterated this demand and advised us that these claims were being evaluated for possible legal action. Investors could be significantly diluted if Golenberg & Co. successfully brings a lawsuit against us.

**Trading in our common stock and warrants may be limited and could negatively affect the ability to sell your securities.**

A public market for our common stock and our warrants has only existed since July 29, 1999, the date of our initial public offering. We do not know how liquid the market for our stock and warrants will remain and if the market becomes illiquid, it may negatively affect your ability to resell your securities.
